For Police	520

GENERAL INFORMATION

Business Transactions With Jackson County Telephone Company

Our aim is to render a satisfactory service to our customers, however difficulties will sometimes occur despite all efforts to avoid them. How to place long distance calls, secure numbers not listed in the directory, report a telephone out of order, and make emergency calls is shown under "Service Calls." All other matters should be taken up with business office by telephone, personal visit, or letter.

BUSINESS OFFICE

FARMERS BLDG., SCOTTSBORO, ALA.
TELEPHONES 270 and 400

BUSINESS HOURS:

8:00 A. M. until 5 P. M.
Monday through Friday
Saturdays 8 A. M. Until 12:00 Noon
B. L. Vann, Local Manager

ATTACHMENTS OR APPLIANCES

No instrument, apparatus, appliance or device of any kind not furnished by the Company in furnishing service, shall be attached to or in any manner used in connection with the equipment and lines of the Company.

Payment of Bills

Bills are rendered once each month for local service in advance for a one-month period from date of bill and long distance service for a one-month period preceding date of the bill. Bills are payable by mail or in person at our business office.

HOW TO PLACE OUT-OF-TOWN CALLS

There are two general classes of out-of-town calls: Station-to-Station and Person-to-Person.

STATION-TO-STATION

(From One Telephone to Another)

A station-to-station call is when you ask to be connected with a certain telephone in another town. If you ask for a particular person, or for an extension telephone reached through a private branch exchange, as in a department store or hotel room, the call becomes a person-to-person call.

TO PLACE A STATION-TO-STATION CALL

1st.—Give operator name of place you are calling.

2nd.—Give telephone number you are calling (if known) or name and address (if known) of the party whose telephone you are calling. For example: A. J. Smith, 500 Third Street.

3rd.—Give your telephone number when operator asks for it.

ADVANTAGES OF STATION-TO-STATION CALL

A station-to-station call is completed more quickly and the rate is less than for a person-to-person call.

The rate is reduced between the hours of 6 p. m. and 4:30 a. m. and all day Sunday if the initial day rate exceeds 35 cents. The time at the starting place when the conversation begins determines whether the day or night rate applies.

PERSON-TO-PERSON CALLS

(From One Person to Another)

A person-to-person call is one when you ask for a certain person or extension telephone reached through a private branch exchange, as in a department store or hotel room.

H O Bousley 327 R.

TO PLACE A PERSON-TO-PERSON CALL

1st.—Give operator name of the place you are calling.

2nd.—Give name and telephone number (if known) of person you are calling, name and address (if known) of the party called. For example: A. J. Smith, telephone 2720, or A. J. Smith, 500 Third Street.

3rd.—Give your telephone number when operator asks for it.

ADVANTAGES OF PERSON-TO-PERSON CALL

The rate for a person-to-person call is higher than the rate for a station-to-station call.

The rate is reduced between the hours of 6 p. m. and 4:30 a. m. and all day Sunday, if the initial day rate exceeds 50 cents. The time at the starting place when the conversation begins determines whether the day or night rate applies.

The initial period is three minutes, after which additional time is charged for accordingly.

Charges begin when the called person or extension telephone reached through a private branch exchange is obtained, provided the calling party is holding the line.

Charges may be reversed without any change in rate.

COLLECT CALLS

If charges on the call are to be paid at the other telephone, tell the operator when placing the call that it is a "collect" call. If accepted at the other telephone, charges will be billed to that telephone.

TARIFFS

Tariffs which show rates, rules and regulations for telephone service are on file with the Regulatory Commission having jurisdiction over such matters, and are available for public inspection at our business office.

TRANSMITTING MESSAGES

Oral or written messages may not be accepted by employees of Jackson County Telephone Company to be transmitted over the Telephone Company's lines.

TELEPHONE CONTRACTS—RULES AND REGULATIONS UNAUTHORIZED USE OF THE TELEPHONE

The use of a subscriber's telephone is limited to the subscriber, his family or employee in his interest. Subscriber have no right to allow its use by other parties. The telephone may be removed if this condition of the contract is disregarded. The sub-

scriber assumes all responsibility for local or toll messages sent from subscriber's station and for toll messages received at such stations when the charges are reversed with the consent of the person called.

TELEPHONE DIRECTORIES

Call by number and help us improve the service. When you call by name you delay your service and hamper its efficiency. You can improve the service by looking up the number in the directory before calling, and then give the operator the number and not the name. We ask your cooperation.

Numbers not in the current directory may be secured by calling "Information."

No binder, holder, or other cover, except those furnished by the Telephone Co., shall be used in connection with any telephone directory.

The Telephone Company assumes no liability whatever, for damages arising from errors or omissions in the making up or printing of the books. The utmost care is used, however, in listing all subscribers correctly.

Telephone Directories can be obtained for our customers. Prices, etc., may be secured by calling the business office.

BUSINESS RATE

Service subject to the business rate may be determined by the location of the telephone instrument, or, the primary use made of the service. The business rate will apply when the telephone is located on premises primarily and essentially used for business purposes such as offices, stores, shops, factories and garages. The business rate may also apply to telephones located in domestic establishments when the service is used substantially for, or advertised for business purposes.

RESIDENCE RATES

Telephones located in residences and used primarily for domestic purposes are entitled to the rate for resident service. If, however, such service is used substantially for, or advertised for, business purposes the business rate may be applied.

NUMBERS MAY BE CHANGED

The subscriber has no property right in the telephone number and the Telephone Company may change the telephone number whenever it deems it desirable in the conduct of its business.

FIRE

Please refrain from calling the operator when the fire alarm is blown, as this causes serious congestion and delays important messages.

INSTRUCTIONS FOR USING THE DIAL TELEPHONE

On all calls remove the receiver carefully from the hook and listen for the dial tone before starting to dial a number. The dial tone is a steady humming sound heard in the telephone receiver indicating that the line is ready for you to dial.

HOW TO DIAL A NUMBER

When you hear the dial tone, keep the receiver off the hook and dial each figure of the telephone number, as listed on this page, consecutively in order given. For example, if you are calling 2011, proceed as follows:

1. Place your finger in the opening over the figure 2.
2. Turn the dial around until your finger strikes the finger stop.
3. Remove your finger and without touching the dial allow it to return to its normal position.
4. Proceed in the same way to dial other figures.

If your finger slips, or you make a mistake dialing, hang up the receiver at once, wait a few seconds and dial again.

Before starting to dial a second call, always hang up your receiver for a few seconds in order to clear the previous connection.

RINGING AND BUSY SIGNALS—Within a few seconds after you have completed dialing you should hear either the ringing signal, an intermittent burr-rr-ing sound, indicating that the bell of the called line is ringing, or the busy signal, a rapid buzz-buzz-buzz, indicating that the called line is busy.

If you do not hear either of these signals within half minute hang up the receiver, wait a few seconds and make another attempt.

When for any reason you do not get the number called (for example, the called line is busy or does not answer) you will get quicker service if you hang up the receiver and call later at intervals instead of immediately dialing the "Operator" for assistance.

OBTAINING ASSISTANCE FROM "OPERATOR" IN EMERGENCIES:

If the lights are out, or you need assistance from the Operator in emergencies, you may secure an Operator by simply placing your finger in the opening in the dial through which "O" is seen, and turning the dial around to the finger stop and releasing it.

CALLS FROM PARTY LINES OR FROM A LINE WITH AN EXTENSION TELEPHONE:

Always make sure the line is not in use. If you do not hear the dial tone, ask if the line is being held by someone else on the line—if no response is received hang up the receiver for a few seconds and make another attempt.

Listen on the line while dialing, and if you hear another party come in on the line, or hear successive clicks in the receiver, it indicates that someone else on the line is trying to dial. Inform him the line is in use and ask him to hang up his receiver. When he does so, hang up your own receiver for a few seconds and then remove it and dial the complete number again.

TO DIAL A PHONE THAT IS ON THE SAME LINE WITH YOUR PHONE

The number will be the same except the last digit, dial the complete number that is in the Directory opposite the name, then hang up your receiver, give the other phone time to ring and then lift receiver, wait for the other party to answer.

LONG DISTANCE SERVICE—To place a long distance call, dial Operator.

FOR INFORMATION OR OTHER BUSINESS:

For Information, Repair Service, Business Transactions, Applications for Service, Moving of Telephone, Bills, etc., dial "Operator."

Consult the
TELEPHONE
DIRECTORY
ADVERTISEMENTS

To Find Who Sells
A SERVICE or PRODUCT
YOU WANT

The Only Difference

between advertising mediums is—
some are better than others. The
Telephone Directory ranks with the
very best.

An Advertiser's Best Buy

—Space in the Telephone Directory.
It places your name and telephone
number before the buyer at the
very moment he wants what you
have to sell.

It's EASY to Use the

CLASSIFIED TELEPHONE DIRECTORY

Here's the Way to Use It

1. Locate the heading which describes the kind of business, profession, commodity, or service you wish. The headings are arranged in alphabetical order. Then select from the listings and other information under the heading the firm or individual you wish.
2. You will also find display representation which will provide you with more complete buying information.
3. Trade-marks or branded names of products or services will also be found under headings descriptive of the products or services.

Here's How to Quickly Find the Business Telephone Number of Someone You Have in Mind

1. Locate the heading which describes the business or profession.
2. Then locate the firm or individual you are looking for by referring to the listing under the heading.

CLASSIFIED TELEPHONE DIRECTORY

The Classified Telephone Directory is published for the benefit and convenience of our subscribers. Each business subscriber is given one listing under one general Classification without cost. The Telephone Company assumes no responsibility or liability for errors or omissions occurring in the Classified Telephone Directory. Errors or omissions will be corrected if reported by letter to the Company.

All subscribers (both residence and business are listed alphabetically on the preceding white pages.) The following pages (yellow) list only business subscribers.

NUMBERS FREQUENTLY CALLED

Edge Water 5-7312

Juanita R. Thompson, Dr. Edge Water 5,7312

Juanita P. Thompson Forge Heights

It Takes Two Kinds of Money To Keep Telephone Service GOING and GROWING

The money our customers pay us for service is "operating money" and is used to pay the day-by-day operating costs such as wages, salaries, taxes, maintenance and the like.

The money required and used for expanding our facilities—construction of buildings and lines, installation of central office equipment, and the like—comes from investors . . . people who are willing to invest their savings in the telephone business.

Never has the need for money to expand facilities been so great as since 1945. During that time we've more than doubled the number of telephones, more than doubled Long Distance circuits and quadrupled rural telephones.

That makes it important to have a financially sound telephone company—a Company capable of meeting today's higher costs and earning enough to attract the capital required to do the job.

The Shelby Telephone Co.

Bill Jones 538 W.
