BRIDGEPORT, ALA.
STEVENSON, ALA.

AUGUST 1957

IMPORTANT

DO NOT USE THIS
DIRECTORY UNTIL AFTER
1:00 A.M. SUNDAY,
AUGUST 18, 1957

At This Time All Telephone
Numbers in Bridgeport and
Stevenson Will Be Changed
to Add a "Central Office
Name" for Bridgeport
"HYacinth 5" for Stevenson
"HEmlock 7"

PLEASE DO NOT CALL
FROM MEMORY

IMPORTANT

The number you wish to dial will
be a combination of two letters
and 5 numbers.

For Example:

To dial HYacinth 5-1234, you
dial HY 5-1234.

To dial HEMlock 7-1234, you
dial HE 7-1234.

When calling Long Distance Please
Give the Operator the Full "Office
Name" and all five numbers.

Be sure to use this directory on and
after Sunday, August 18th and on
that date dispose of your old
directory.

PLEASE DO NOT CALL
FROM MEMORY

USE LONG DISTANCE It's Fast, and the Cost is Small

ALPHABETICAL AND CLASSIFIED TELEPHONE DIRECTORY

THE CLASSIFIED PORTIONS OF THE FOLLOWING PAGES REPRESENT OUR EFFORTS TOGETHER WITH THOSE OF LOCAL BUSINESSES TO PROVIDE YOU WITH MORE COMPLETE AND HELPFUL BUYING INFORMATION

HOW THE INFORMATION IS ARRANGED . . .

Each business telephone subscriber is listed under a classified heading generally descriptive of his business or profession, such as, Automobile Dealers, Beauty Shops, Grocers, etc. The headings and the names associated with them are listed alphabetically. Simple as A, B, C, isn't it?

The variety of classifications describing products and services, such as Radio Sets, Venetian Blinds, Welding, etc. enables firms handling various products and services to more adequately describe each phase of their business. For example, a furniture store handling Radios, Refrigerators, and Draperies might include for your convenience listings and other helpful buying information under these classifications.

We know How and Why others use the classified directory; therefore we endeavor to have the firms listed to include representation that will tell you the full story about their business.

ACQUIRE THE CLASSIFIED DIRECTORY SHOPPING HABIT . . .

- to find the nearest dealer
- to find a business or professional name or address
- to obtain a list of dealers
- to find a well-known brand of products or authorized service
- to get prices or estimates
- to find a particular article or service in an emergency or in a hurry
- to find an infrequently used product or service
- to find a business telephone number more easily
- to get information about—products and services—business hours—deliveries—credit terms—special services, etc.

THE CLASSIFIED DIRECTORY TELLS WHO BUYS, SELLS, RENTS AND REPAIRS

How to Use the Dial Telephone In Bridgeport and Stevenson

The Dial

The dial has ten openings and ten figures, 1, 2, 3, 4, 5, 6, 7, 8, 9 and 0. One figure is associated with each dial opening. Some of the openings also have letters on the dial. The letters will always be found in groups of three, for example, the letters "ABC" are found associated with the second opening and "DEF" with the third opening, etc. It is most important not to confuse the letter "O" and the figure "Zero". The letter "O" is found with the three letters "MNO", while the figure "Zero" is associated with the last dial opening and the word "Operator".

Wait For Dial Tone

Remove the receiver from the hook and listen for the dial tone which is a steady humming sound indicating that the line is ready for you to dial. If you do not hear the dial tone within a reasonable length of time, hang up, wait a few seconds and try again.

How to Dial a Number

When you hear the dial tone, dial the first two letters in the central office name and then each figure in the telephone number you wish to call as follows—Place your finger in the opening associated with the first letter of the number, turn the dial around until your finger strikes the finger stop, then remove your finger and, without touching the dial, allow it to return to its normal position. Proceed in the same way to dial the other letters and figures in the number. If your finger slips, or if you make a mistake, hang up the receiver, wait a few seconds for the dial tone and dial again.

Before dialing a second call, always hang up the receiver for a few seconds to clear the previous connection.

Ringling and Busy Signals

A few seconds after you have completed dialing, you should hear either the ringing signal, an intermittent burr-r-r-ring sound, indicating that the bell of the called telephone is ringing, or you should hear the busy signal, a buzz-buzz-buzz, indicating that the called line is busy.

If the called telephone is busy, you should hang up your receiver and try the call again later.

If you do not hear either the ringing signal or the busy signal within half a minute, hang up your receiver for a few seconds and then try the call again.

Dial "Operator" for Assistance

If at any time you wish further information regarding the procedure to follow in making calls of any kind, dial "Operator" and ask her for the information desired.

If you fail to hear the ringing signal or busy signal after repeated attempts to reach a number, or if you have any other difficulty in completing a call, dial "Operator" and report the condition to her.

Coin Box Telephones

Instructions for operating coin box telephones are mounted on each coin box station.

Calls from a Party Line or from a Line With an Extension Telephone

Listen to make sure that the line is not in use. If you do not hear the dial tone, ask if the line is being used. If no response is received, hang up the receiver and then try again.

However, if you hear successive clicks, indicating that someone is dialing, wait until the dialing stops and then say that you have interfered with the call, that it will be necessary to hang up and dial the complete number again. Then replace your receiver on the hook.

If you hear another party on your line during or after dialing, say that the line is in use and request him to hang up his receiver. If the other party comes in on the line while you are dialing, after he hangs up, you should also hang up for a few seconds and then dial the complete number again.

To Secure Names of Other Parties on Your Line

If you wish to know the names of the other parties on your line, you may obtain this information from the "Repair Service".

To Dial Another Party on Your Line GENERAL INSTRUCTIONS

If you are a party line subscriber and wish to call another party on your line, it will be necessary to follow the instructions given below.

After you have finished dialing the code number or listed number, as shown below, hang up your receiver. Your bell, as well as the bell of the party you are calling, will ring at brief intervals.

Your bell will, in some cases, ring with the called party's code on certain calls, and with a very short ring, recurring at brief intervals, on other calls. This ring will also be sounded at other telephones on your line, and four-party or rural subscribers whose call code is one long ring should not answer their telephones when the short recurring ring is heard, since the short ring is only to let the calling party know that the number dialed is being rung.

When the called party answers, your bell will stop ringing and you should lift your receiver to talk with the party answering. If your bell does not stop ringing in from one to two minutes, it indicates that there is no one within hearing distance to answer the called telephone. You should then stop your bell from ringing and free your line from the connection by moving your receiver from the hook for a few seconds.

BRIDGEPORT SUBSCRIBERS

Two-Party Subscribers—To call the other party on your line, dial the code "8832" and proceed as described above under "General Instructions."

Rural Subscribers—To reach another party on your line, dial the regular number of the other party as listed in the telephone directory. After you have finished dialing, you will hear the "busy" signal and should immediately hang up your receiver, and proceed as described above under "General Instructions."

STEVENSON SUBSCRIBERS

Two-Party Subscribers—To call the other party on your line, dial the code "812" and proceed as described above under "General Instructions."

Four-Party Subscribers—You may obtain the code for calling another party on your line from "Repair Service." Give her your telephone number and also the number of the party you wish to call. You will be given the proper code number to dial. You should then dial this code using the method shown above under "General Instructions."

Rural Subscribers—To reach another party on your line, dial the regular number of the other party as listed in the telephone directory. After you have finished dialing, you will hear the "busy" signal and should immediately hang up your receiver, and proceed as described above under "General Instructions."

General Information

Tariffs

Tariffs which show rates, rules and regulations for telephone service and facilities are on file with the Regulatory Commission having jurisdiction over such matters, and are available for public inspection at our business office.

Transmitting Messages

Employees of the Telephone Company are forbidden to accept oral or written messages to be transmitted by an employe over the lines of the Telephone Company.

Attachments to Telephones

To render satisfactory service, it is important that the Telephone Company furnish and maintain all apparatus and equipment connected with its lines. Except as provided in the Tariffs, no line, instrument, appliance or apparatus not furnished by the Telephone Company shall be connected with, attached to or in any way used in connection with facilities of the Telephone Company.

Recording of Telephone Conversations

A short "beep" tone heard over the telephone about every 15 seconds indicates that the person with whom you are talking is recording your conversation by means of his electrical recording machine connected to the line. The "beep" signal is produced automatically by a device which connects the recorder to the telephone line and which is provided by the Telephone Company for your protection.

Use of a recorder without this signal is unlawful. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect his recording machine. When he disconnects his recorder, the signal is no longer heard.

Advertising Telephone Numbers

The advantages of showing telephone numbers on stationery, signs, cards, etc., are recognized, though the growth and changes in the city and the corresponding growth and arrangement of telephone facilities may require the changing of telephone numbers. For this reason, stationery, signs, cards, etc., showing telephone numbers should not be printed in large quantities.

Telegrams by Telephone

You may telephone telegrams, cablegrams or radiograms to the Western Union Telegraph Co., and have the charges billed to your telephone account if you are a telephone subscriber.

Telephone Directories

Every effort is made to make the directory as accurate as possible. The Company, however, assumes no liability for damages arising from errors or omissions in making up or printing of this directory. Please report any incorrect listings by calling the Business Office promptly.

Loss of time and inconvenience by calling wrong numbers can be avoided if you consult the current directory before placing a call and avoid the use of obsolete directories.

Between directory issues certain numbers do not appear in the current directory due to changes and new installations. These numbers may be secured by calling "Information."

The use, in connection with telephone directories, of any auxiliary covers, tabs, stickers, inserts or other matter, except such as are provided by, or with the consent of, the Telephone Company is prohibited.

Telephone directories of other cities in this and certain foreign countries can be obtained for our customers who need them. Prices, etc., may be secured by calling the business office.

Architects' and Builders' Service

When building or remodeling, you may arrange with your architect or builder to provide telephone outlets while construction is in progress. The Telephone Company will gladly cooperate with you, your architect or builder, and the Telephone Company and ask for "Architects' and Builders' Service."

Long Distance Calls

Rates and information concerning initial period, overtime and Federal taxes on long distance calls may be obtained by calling "Long Distance". Night and Sunday rates apply from 6 P. M. to 4:30 A. M. and all day Sunday.

Overseas Telephone Service

Information on the availability of telephone service to overseas points and rates applicable thereto may be obtained by calling "Long Distance".

Reduced rates apply on calls to many countries during night hours and on Sunday.

How to Place Out-of-Town Calls

There are two general classes of Out-of-Town Calls, Station-to-Station and Person-to-Person, explained below.

Station-to-Station Calls

(From One Telephone to Another)

A station-to-station call is one where you ask to be connected with a certain telephone in a distant place. However, if you ask for a particular person or for an extension telephone reached through a private branch exchange, as in a particular department or hotel room, the call is a person-to-person call. A station-to-station call usually is completed more quickly and the rate is less than for a person-to-person call.

The time at the originating point when the conversation starts determines whether the day or night rate applies. Charges begin when the called telephone is answered, provided the calling party is holding the line.

To Place a Station-to-Station Call

First—Give the operator the name of the place you are calling.

Second—Give the telephone number you are calling (if known), otherwise, the name and the address (if known) of the party whose telephone you are calling. For example: J. W. Brown's Residence—425 Main Street.

Third—Give your telephone number when the operator asks for it.

Person-to-Person Calls

(From One Person to Another)

A person-to-person call is one where you ask for a particular person or extension telephone reached through a private branch exchange, as one in some department or hotel room. The rate for a person-to-person call is higher than the rate for a station-to-station call.

The time at the originating point when the conversation starts determines whether the day or night rate applies. The initial period is three minutes, after which charges for additional time apply. Charges begin when the called person or extension telephone reached through a private branch exchange is obtained, provided the calling party is holding the line. Charges may be reversed without any change in rate.

To Place a Person-to-Person Call

First—Give the operator the name of the place you are calling.

Second—Give the name and the telephone number (if known) of the person you are calling, otherwise, the name and the address (if known) of the called party. For example: Mr. J. W. Brown, at telephone 2470, or Mr. J. W. Brown, at J. W. Brown's residence—425 Main Street.

Third—Give your telephone number when the operator asks for it.

Collect Calls

If the charges on the call are to be paid at the distant telephone, you should tell the operator filing the call that it is a "collect" call. The call, if accepted at the distant telephone, will be that telephone.

Building or Remodeling?

PLAN FOR CONCEALED TELEPHONE WIRING . . .

Telephone Outlets in every room where telephone service may later be desired add a world of convenience and extra value to a home.

It costs very little during construction to include conduit for future telephone service. This will avoid drilling and exposed wires.

For further information call the Telephone Company and ask for "Architects' and Builders' Service."
