

Family History Holdings at the Heritage Center

These are the family history documents kept in the main research room of the heritage center, the bottom two shelves of the long bookcase. These documents are shelved in alphabetical order by the first name in the list. For example, My Apple, Banana, and Carrot Families is found under A. In the list below, you would find an entry under the remaining names in this format: Banana: See My Apple, Banana, and Carrot Families and Carrot: See My Apple, Banana, and Carrot Families.

There are some excellent, forgotten histories here. There is a very good two-volume history of our Bouldin family from Virginia Knight. There is a history of the Crabtree family written by Eliza Woodall, author of *The Stevenson Story*. There are collections of original documents and pictures. There is a wonderful notebook about the Phillips family. There are tons of Maples and Kennamer documents. There are also documents for some family names I have never seen in this county.
