HOW TO PLACE OUT-OF-TOWN CALLS

There are two general classes of out-of-town calls: Station-to-Station and Person-to-Person.

STATION-TO-STATION

(From One Telephone to Another)

A station-to-station call is when you ask to be connected with a certain telephone in another town. If you ask for a particular person, or for an extension telephone reached through a private branch exchange, as in a department store or hotel room, the call becomes a person-to-person call.

TO PLACE A STATION-TO-STATION CALL

1st.—Give operator name of place you are calling.

2nd.—Give telephone number you are calling (if known) or name and address (if known) of the party whose telephone you are calling. For example: A. J. Smith, 500 Third Street.

3rd.—Give your telephone number when operator asks for it.

ADVANTAGES OF STATION-TO-STATION CALL

A station-to-station call is completed more quickly and the rate is less than for a person-to-person call.

The rate is reduced between the hours of 6 p. m. and 4:30 a. m. and all day Sunday if the initial day rate exceeds 35 cents. The time at the starting place when the conversation begins determines whether the day or night rate applies.

PERSON-TO-PERSON CALLS (From One Person to Another)

A person-to-person call is one when you ask for a certain person or extension telephone reached through a private branch exchange, as in a department store or hotel room.

TO PLACE A PERSON-TO-PERSON CALL

1st.—Give operator name of the place you are calling.

2nd.—Give name and telephone number (if known) of person you are calling, name and address (if known) of the party called. For example: A. J. Smith, telephone 2720, or A. J. Smith, 500 Third Street.

3rd.—Give your telephone number when operator asks for it.

ADVANTAGES OF PERSON-TO-PERSON CALL

The rate for a person-to-person call is higher than the rate for a station-to-station call.

The rate is reduced between the hours of 6 p. m. and 4:30 a. m. and all day Sunday, if the initial day rate exceeds 50 cents. The time at the starting place when the conversation begins determines whether the day or night rate applies.

The initial period is three minutes, after which additional time is charged for accordingly.

Charges begin when the called person or extension telephone reached through a private branch exchange is obtained, provided the calling party is holding the line.

Charges may be reversed without any change in rate.

COLLECT CALLS

If charges on the call are to be paid at the other telephone, tell the operator when placing the call that it is a "collect" call. If accepted at the other telephone, charges will be billed to that telephone.

TARIFFS

Tariffs which show rates, rules and regulations for telephone service are on file with the Regulatory Commission having jurisdiction over such matters, and are available for public inspection at our business office.

TRANSMITTING MESSAGES

Oral or written messages may not be accepted by employees of Jackson County Telephone Company to be transmitted over the Telephone Company's lines.

TELEPHONE CONTRACTS—RULES AND REGULATIONS UNAUTHORIZED USE OF THE TELEPHONE

The use of a subscriber's telephone is limited to the subscriber, his family or employee in his interest. Subscriber have no right to allow its use by other parties. The telephone may be removed if this condition of the contract is disregarded. The sub-

scriber assumes all responsibility for local or toll messages sent from subscriber's station and for toll messages received at such stations when the charges are reversed with the consent of the person called.

TELEPHONE DIRECTORIES

Call by number and help us improve the service. In a community this size the operators—especially a new one—cannot possibly remember the names of all subscribers; and when you call by name you delay your service and hamper its efficiency. You can improve the service by looking up the number in the directory before calling, and then give the operator the NUMBER AND NOT THE NAME. We ask your cooperation.

Numbers not in the current directory may be secured by calling "Information."

No binder, holder, or other cover, except those furnished by the Telephone Company, shall be used in connection with any telephone directory.

DIRECTORY

The Telephone Company assumes no liability, whatever, for damages arising from errors or omissions in the making up or printing of this book. The utmost care is used, however, in listing all subscribers correctly.

Service subject to the business rate may be determined by the location of the telephone instrument, or, the primary use made of the service. The business rate will apply when the telephone is located on premises primarily and essentially used for business purposes such as offices, stores, shops, factories, and garages. The business rate may also apply to telephones located in domestic establishments when the service is used substantially for, or advertised for business purposes.

Telephones located in residences and used primarily for domestic purposes are entitled to the rate for resident service. If, however, such service is used substantially for, or advertised for, business purposes, the business rate may be applied.

NUMBERS MAY BE CHANGED

The subscriber has no property right in the telephone number and the Telephone Company may change the telephone number whenever it deems it desirable in the conduct of its business.

FIRE

Please refrain from calling the operator when the fire alarm is blown, as this causes serious congestion and delays important messages.
