Dedication

To those all-important people who have influenced our lives through proper guidance and unselfish generosity; to those who have made it possible to cherish forever the advantages of education in a free land; to those to whom we owe undying gratitude and everlasting loyalty for their love and devotion . . .

We, the Seniors, proudly dedicate this volume to our parents,

MAKING THE GOOD EARTH BETTER

Low cost electricity does more than make farming more profitable. It encourages farm practices that build up the land instead of tearing it down . . . It gives the farmer the strength of many men. No other source of power serves so well or at such a low price.

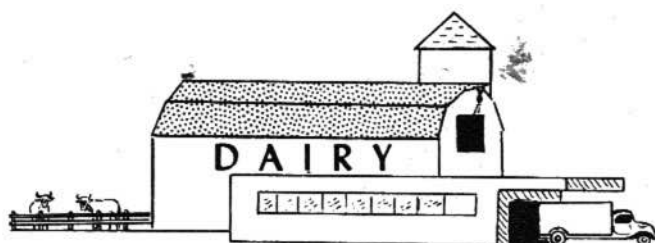

Many of our farms do not have this valuable farm hand, but electrification is going forward as fast as materials become available. This is one of your power distributor's most important contributions in making this a better place to live.
