MODERN TELEPHONE SERVICES

Speakerphones

Provide "Hands-free" telephoning. Use both hands to look up records or take notes while you're talking. Separate microphone and loudspeaker allow group conversations. Use the receiver when you want to phone normally, speaker is automatically disconnected.

Spokesman

The Spokesman broadcasts both sides of telephone conversations, groups of people can hear the entire conversation.

The Call Director

Modern and functional . . . designed for today's business requirements. Available in a choice of several colors. Equipped with versatile push buttons giving access to a number of lines. Permits holding calls while answering others. Also permits signaling and conferencing arrangements.

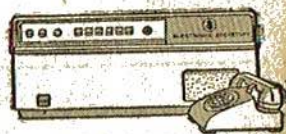

Home Interphone

You can talk from room to room, transfer calls, even answer the door by picking up your nearest phone!

Automatic Answering Sets

An automatic answering set answers the phone when you're out; gives callers your message and records any message left for you. Saves time and trouble, improves service to customers.

Automatic Dialers

Several types are available to meet your requirements. They store the local and long distance numbers you call most often, and dial them for you at the touch of your finger.

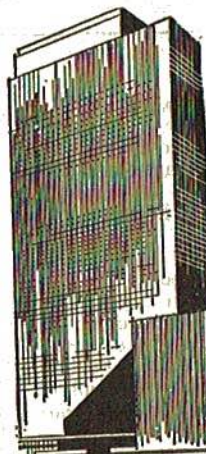

Shoppers' Wonderland!

The YELLOW PAGES . . . the buyers' guide . . . the business man's go getter. Buyers turn to them more and more for the products and services they want and need when they're ready-to-buy . . . YELLOW PAGES means BUSINESS!

Good Building Design Includes Telephone Planning

Increased use of telephone, teletypewriter and data-communications services makes planning for these services in commercial and industrial buildings more important than ever before. A telephone company Architects and Builders Service representative will gladly help you, your architect or builder plan ahead.
